Tolmerra Water Authority

Draft Five-Year Plan 2026-31

Strategy and plan, 2026

41 Quarry Street, Wattleford | 1800 975 707 | tolmerrawater.example

The draft plan proposes $240 million of investment in water supply, sewerage and environmental protection over five years.

We propose to keep average household bill increases at or below inflation. The average annual bill would rise from $1,148 to about $1,290 over the period.

Key investments include a new reservoir at Ellerby Flats, expansion of the Saltpan Bay Recycled Water Plant, smart meters in every region and sewer relining in Wattleford.
