Tolmerra Water Authority

Water Security Outlook 2026

Strategy and plan, 2026

41 Quarry Street, Wattleford | 1800 975 707 | tolmerrawater.example

The water security outlook models regional supply and demand to 2036 under a range of climate and population scenarios.

Under the central scenario, existing sources meet demand until 2033. Under a drier scenario, additional supply from recycled water or a new storage would be needed by 2030.

The Authority is preparing options for community consultation as part of the 2026-31 plan.
